

6th report to the UN Security Council - RS Government

The following is an excerpt from the RS Government's Sixth Report to the UNSC, presented by President Dodik. "It is an honour to address you for the second time in six months and to use the upcoming debate on Bosnia and Herzegovina (BiH) in the United Nations Security Council (UNSC) as an opportunity to inform you about some of the positions of the leadership of Republika Srpska (RS).... I shall use this opportunity to shed some light on certain aspects mentioned in the report by the High Representative, Mr. Valentin Inzko. The first aspect is the consistency with which the HR has been placing his lump and unfounded accusations against the RS for alleged acting beyond the boundaries of the Dayton Agreement. Just like in his previous report, the High Representative yet again failed to offer a single example of actual violation of the Dayton agreement but that did not stop him from setting out several serious, yet unspecific allegations in his report. You are aware that the High Representative is the supreme interpreter of the Dayton agreement. However, that role does not allow him to impose charges laconically, and without ever giving specific references. The High Representative stubbornly believes that the Security Council shall accept his assessments without thinking twice, and that our stands could not be a match for his in terms of weight or force. Aware of this, this was why I used my last address to the Council to present a number of specific arguments in response to the aforementioned charges...." Download the full report [here](#).
